

PERSONNALISED ENGRAVING COURSES.

INTO R.BAPTISTE'S WORKSHOP.

Engraver like his father, Roland Baptiste would like to offer classes for people wanting to learn how to engrave with older and modern techniques.

More info at <http://rbaptiste.com>

Graduated since 1993 from the Armory School of Liège and possessor of the Certificate of Pedagogical Aptitude (CAP) Roland Baptiste offers the rare possibility of using Palmcontrol et Classic airgraver in Europe.

Recommended by Steve Lindsay.

*Students are received one by one to have a more personalised learning.
On request, the positivité of two students simultaneously with a reduced cost.*

Unlike other courses, the course program adapts to the progress of each student's learning, thus making it possible not to be limited to a program and techniques previously fixed.

This has the benefit of not stopping the discovery of techniques and also to avoid an accumulation of weeks necessary to best meet the curiosity and expectations of the student.

All techniques of engraving and artistic compositions can be approached without restrictions during the course.

You will work with optimal conditions. You will be directly corrected through a tracking of your actions by camera placed on the binocular.

The courses are on a 5 days basis for a sum of 1500€ without taxes.

Le lunch is taken at Roland's.

Classes will be held from 8:00 am to 4.00 pm.

The course sessions are given only by appointment at the dates best suited to the apprentice candidates.

There is a very nice hotel nearby (<https://www.hotelverviers.be>) as well as several restaurants.

Other housing opportunities at <https://www.booking.com>

Verviers is a city where it is very easy to access by train.

The workshop is located 5 minutes walk from the train station.

Roland Baptiste has produced a book for anyone who wants to learn or discover engraving techniques.

Digital versions in English and French available for sale via email at info@rbaptiste.com at the price of 72,60 €

Students who participated in the course will benefit from a free digital pack.

This book is essentially technical and educational. It contains 160 widely illustrated pages.

Format PDF

Format 426x320 .MOV (Quicktime)

"Through this book (PDF format), I wanted to discover my techniques and my methods of creations and achievements so that everyone can appreciate the true value of the work of the hand engraver.

I wanted to make a DVD to complete the book by visual and acquire the good gestures of the hand. "

To be aware of the work done, come visit the workshop, whether by curiosity or interest, it will always be with pleasure that you will be welcomed on simple appointment.

Hope to meet you.

Roland Baptiste
